Subject: Revised Operational Environmental Management Plan – Arndell Park Clinical Waste Management Facility

Dear Ms Busher,

I refer to your submission dated 3 April 2023, seeking approval of the revised Operational Environmental Management Plan (OEMP) including sub-plans required by conditions C2 and C3 of the SSD-6761 development consent (the development consent). I note that the revised OEMP has been submitted for approval pursuant to condition C5 of the development consent, which requires all management plans to be reviewed and updated where appropriate following the submission of an Independent Audit for the development. The Department's records indicate that an Independent Audit for the development was carried out on 23 May 2022.

The Department of Planning and Environment (the Department) has carefully reviewed the submitted management plans and concludes that the plans address the relevant conditions of the development consent. As such, the following revised management plans are approved:

- Operational Environmental Management Plan titled '*Arndell Park Clinical Waste Management Facility Operational Environmental Management Plan*' prepared by Arup Pty Ltd dated 29 March 2023.
- Air Quality Management Plan titled '*Air Quality Management Plan Med-X Clinical Waste Management Facility*' prepared by Todoroski Air Sciences Pty Ltd dated 28 March 2023.
- Operational Traffic Management Plan titled '*Arndell Park Clinical Waste Management Facility Operational Traffic Management Plan*' prepared by Arup Pty Ltd dated 26 March 2023.
- Waste Management Plan titled '*Arndell Park Clinical Waste Management Facility Waste Management Plan*' prepared by Arup Pty Ltd dated 29 March 2023.

You are reminded that if there are any inconsistencies between the above-mentioned management plans and the conditions of approval, the conditions prevail.

Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Penny White, Industry Assessments on 02 8289 6410.

Yours sincerely
